

**NORTHUMBERLAND TABLE TENNIS ASSOCIATION PLAYER GRADINGS FOR
KO CUP 2016 to 2017 as at 4 October 2016**

These handicaps have been based largely on the results of games played in the winter season 2015-16 with adjustments for a number of improving players in the Summer Season 2016. The clubs' and players' names have been arranged in alphabetical order. The list will be used as a reference source for the KO Cup 2016-2017 and may be updated to include new players and correct any anomalies, at the discretion of the organising committee. Where there is insufficient data to calculate a grading at the effective date of this document a player will be shown as 0 - 0. Club secretaries are asked to check lists in advance of each round. If any of your players have been omitted or if you require handicaps for new players then contact Alan Hedley by e mail. If phoning do not phone after 9.00pm. Contact details are in League Handbook. No player can compete in this competition without a grading and are required to hold individual membership, with the ETTA, and be registered with the Northumbria League.

GUIDANCE

Each match consists of 9 sets of singles (no doubles).

All matches are the best of 3 games. In each game the player reaching 21 points first wins.

If a game reaches 20 -20 one player requires 2 clear points to win.

Service changes occur each time the score is a multiple of 5.

If the match enters a third game there should be a change of ends when:-

The player starting from 0 reaches 10, or, if earlier, the player with a start reaches a score equating to that start plus half the difference between the start and 21. (e.g. with a start of 8 the difference is 13 – thus change over start = 8 + 6 (round decimals down) = 14.).

When two players meet in a handicap game they use their handicap numbers to calculate the start which the higher graded player gives to the For example a player graded 340 (from the Premier Division) with a handicap number of 2 meets an opponent graded 190 (say from Division 2) with a handicap number of 32. The difference between these handicaps (in this case 30) is then compared to a POINTS START CHART (see the table below) to give the number of points start which the lower graded player receives. In this example the 30 difference between the 2 players chart indicates a 13-point start.

POINTS START CHART

Column A = Difference between 2 players' handicaps

Column B = the start which the higher graded player gives the lower
